Name: El Capitan Pass  
Latitude: 56°07'24" 20"  
Longitude: 133°16'23" 27"  
Geodetic Map No: Petersburg A-4 & A-5  
Location: E shore of El Capitan Passage  
1.8 mile S of Aneskett Point, opposite  
Tokhini Creek

103-90-10020  
Catalog No: 103-90-2  
Former Stream No: \_\_\_\_\_  
Work Area: Ketchikan  
Watershed Length: 0.8 miles  
Drainage Area: 2.8 mi  
Water Supply Type: runoff from mountain  
through forested area

Trails & Survey Routes: channel easily walked throughout survey

Aerial Survey Notes: small grass flats in ITZ is only exposed area to aerial  
surveying; stream narrows considerably and densely covered beyond flats

Anchorage: good along steep, rocky shoreline of El Capitan Passage

Tide Stage when Surveyed: high

### RESOURCES

COMMERCIAL FISHERIES (species, escapement, timing, spawning area):  
very small pink salmon run according to escapement records; only 2 coho fry  
observed through survey; generally poor spawning and rearing habitat

Spawning area: 13.6m<sup>2</sup> (only ASA is found in ITZ)

Schooling Areas: off mouth of stream but very limited in small ITZ

Spawning Areas: poor

SHELLFISH POTENTIAL: poor habitat for clams and crabs; no shellfish observed along  
rocky shore

SPORT FISHERIES: limited due to size of stream; one Dolly Varden trout observed

LAND USE (history, present, proposed): unknown, but immediate area is untouched;  
there are logging operations in general area of stream

REHABILITATION POTENTIAL: none necessary

SOILS: unstable in grass flats, but increased stability on forested banks; cutbanks  
along channel suggest mass wasting at higher flows

GAME RESOURCES (species, use, habitat): possible waterfowl nesting in grass  
flats, but no birds observed; game trails along channel banks suggest deer population  
in area
